The Picasso prints shown above come from the Picasso Estate Collection, selected from personal works inherited by Marina Picasso, Pablo Picasso's granddaughter. She authorized original lithographs after his oil paintings, watercolors, pastels, and charcoal drawings. They were created by Master Chromist Marcel Salinas, who worked closely with Pablo Picasso throughout his career. Each is printed in an edition of 500 on Arches paper. They are signed and numbered in pencil by Marina Picasso and embossed with the estate and chromist's seals on the front, with documentation on the reverse: "Approved by the heirs of Pablo Picasso."
